UNIFIED REFERRAL AND INTAKE SYSTEM (URIS)

A GUIDE FOR PARENTS

www.prairiemountainhealth.ca

Unified Referral and Intake System (URIS)

The URIS program supports children who require assistance with health care needs while attending community programs including schools, licensed child care facilities, respite services, and recreation programs within Prairie Mountain Health.

With your assistance, the URIS Nurse will complete an Individual Health Care Plan for your child

This Health Care Plan outlines your child's health history and the necessary interventions to support your child's health care needs while attending the community program.

The URIS Nurse will train the community program staff for procedures specific to your child's health care need (eg. how to administer an inhaled medication to a child with Asthma).

URIS training supports schools, licensed child care facilities, recreation programs and respite services personnel to respond to your child's specific health care needs and emergencies.

Prairie Mountain Health URIS Program partners with Manitoba health care professionals to ensure your child is receiving the best support available.

The Unified Referral and Intake System (URIS) is a partnership of Prairie Mountain Health and the Government of Manitoba Departments of Health, Family Services and Education

Health Care Conditions (Group B)

Health care procedures may be safely delegated to non-healthcare personnel when the child's health status is stable and response to the procedure is predictable. Non-healthcare personnel must receive training and ongoing monitoring by a URIS Nurse. The URIS program may provide support for the following conditions:

- **Life-threatening Allergy (anaphylaxis)**
- **Asthma (when medication is present at the community program)**
- **Seizure Disorder**
- **Diabetes**
- **Cardiac Condition**
- **Bleeding Disorder**
- **Steroid Dependence**
- **Osteogenesis Imperfecta (brittle bone disease)**
- **Gastrostomy Care and Feeding**
- **Ostomy Care**
- **Clean Intermittent Catheterization (IMC)**
- **Pre-set Oxygen**
- **Suctioning (oral and/or nasal)**
- **Administration of Medications**
